

# This Earth Day, help a park and make a difference.

California state parks give us monumental scenery, ancient forests and priceless historic sites. But these magnificent resources need significant repairs and maintenance.

Join us on Saturday, April 18 for California State Parks Foundation's  
17th Earth Day Restoration and Cleanup  
presented by Pacific Gas and Electric Company.

**Volunteers are needed at:**

**Environmental Living Program Garden  
at Fort Ross State Historic Park**

**To register to volunteer, visit [calparks.org](http://calparks.org) or call 1-888-98-PARKS.**

Thank you to our regional sponsors for making this event possible.
